

## Incredible Cars (Amazing Vehicles)

Incredible Cars takes kids on a journey from the days of the earliest road vehicles and horse-drawn carriages to today's performance sports cars that can go up to 211 miles per hour. Along the way, they'll learn about pioneers like Karl Benz, who built the first successful car, the Motorwagen, and about famous cars like the Lamborghini Murcielago Roadster, which was used by Batman's alter ego Bruce Wayne in The Dark Knight. With the pieces to build models of these and other fantastic cars included with the book, it'll be a hands-on experience kids will never forget. In our world, cars can seem so commonplace but with Incredible Cars, kids will learn how they're truly amazing!
