

## Volcano & Earthquake (Eyewitness Books, No 38)

Full-color photos. Some of nature's most spectacular phenomena get the Eyewitness treatment, with the gorgeous graphics and outstanding design that characterize this series. The account starts with an overall perspective showing how volcanoes and earthquakes occur. Effects on humans and attempts to measure and predict these events are treated. This book will attract readers to an already popular topic, and will provide one of the most effective introductions available.--School Library Journal.
