

Cuatro dublinese (Spanish Edition)

Oscar Wilde, James Joyce, William B. Yeats y Samuel Beckett abandonaron Dublin entre los 20 y los 22 años. Dejó la formación irlandesa alguna huella en la vidas y la obra de estos cuatro celebres dublinese que revolucionaron la literatura? El gran crítico y biógrafo norteamericano Richard Ellmann relata episodios cruciales, poco conocidos (y escabrosos en el caso de Joyce) de sus biografías para revelarnos como el origen determinó su obra, y nos descubre como en Beckett, el más joven de los cuatro, convergen finalmente las conexiones dublinese. El lector comprobaba con desconcierto como, de hecho, son las inhibiciones religiosas, sean católicas o protestantes, las que más incidencia tuvieron, si bien en distinto grado y con resultados muy diversos. / In four Library of Congress lectures, also published as articles in New York Review of Books, the eminent literary biographer finds interesting if not new things to say about four great Irish-born writers: Oscar Wilde, influenced by Ruskin and Pater at Oxford, wavering between Roman Catholicism and atheism, between homo- and heterosexuality; W .B. Yeats, after a ``monkey-gland operation, writing several great poems toward the end of his life; James Joyce, trying to start love affairs to provide background for the Nausicaa chapter in Ulysses; Samuel Beckett, sumptuous in his use of language, isolating, nearly renouncing particulars and depriving his characters of money, youth, health and fortitude. Ellmann finds connections as well as differences among these writers. Because of what Beckett has written, his Irish predecessors ``take on a different look. Because of their work, he may not seem quite so rootless as he first appears.
