

What Is a Food Chain? (Bobbie Kalmans Leveled Readers: My World: H (Paperback))

This clear, simple book introduces children to the concept that living things need energy, and energy comes from food. Starting with an introduction to photosynthesis, children will follow along the food chain as the energy flows to herbivores and carnivores. A diagram, using photos of plants, a rabbit, and a fox, demonstrates a food chain. A detailed illustration of a forest food web follows.
