

Little Cheetah Tale (Bendy Tales)

Bendy Tales are brightly illustrated board books that humorously describe different animals for the delight of toddlers. Each book is shaped like its title animal--and each brightly colored animal shape has a real tail made of bendable material that's covered with soft cloth. The tail can bend into a hook, so that the book can be hung from a crib rail, or high-chair edge, or any other firm platform. The pages--all color illustrated from edge to edge--are constructed of extra heavy cardboard that withstands rough treatment from tiny hands. The text is presented on a level that preschoolers will understand and enjoy. Here's a most unusual cat, with long tail and long legs for running very fast. Boys and girls will find out many interesting facts about cheetahs. (Ages Infant to 3)
