

## Mommies and Their Babies (Black And White)

Animal mothers and babies rendered in black, white, and chalky grays are placed against b&w backgrounds, creating an eye-catching high-contrast effect. Straightforward, lower-case phrases introduce each animal pair: the penguin mommy with her baby chick... the sheep mommy with her baby lamb. Dutch illustrator Van Genechten incorporates textural detail: the elephant's skin looks rough and crinkly, turtle shells have a loose checkerboard pattern, creating a design that is sophisticated but fun.
