

What Bluebirds Do

Stunning full-color photographs and simple text introduce readers to the natural beauty and amazing behaviors of a pair of Eastern bluebirds. A sky-blue male and his young mate select the perfect place to lay their eggs and raise their chicks a nest box built especially for them. Soon, hatchlings gape hungrily for their next meal. As the chicks grow, fledge, and learn to find food on their own, award-winning photographer Pamela Kirby captures them in startling close-ups and action shots.
