

# The Rat Prince

Cinderella thinks she must work alone to save her noble family from the ruin and disgrace her stepmother has brought to Lancastyr Manor. She has an ailing father, a sweet, innocent little stepsister and dependent servants to protect from the wicked Wilhemina--and no way to call attention to their plight unless she figures out how to attend the royal ball. But Cinderella knows nothing of the ancient pact between the House of Lancastyr and the rats who live within the walls of her ancestral home. Nor is she aware that the sleek black rat she thinks is her pet is actually the Rat Prince...and she is not alone.
