

Dark Eye: The films of David Fincher

David Fincher is young, talented, and something of an outsider, with a dark cinematic vision from the serial-killer drama *Seven* to the urban gothic thriller *Panic Room*. In *Dark Eye*, written with Fincher's full involvement and featuring in-depth interviews, journalist James Swallow presents a complete survey of the director's work. He begins with Fincher's early career at special-effects house Industrial Light & Magic, where he worked on films like *Return of the Jedi* and *Indiana Jones and the Temple of Doom*. He then looks at each of the director's major films, including his most recent release, *Zodiac*. Rounding out the book is a reference section and website listing.
