

Metal Fatigue: The Making of a Middle Aged Metal Head

In Ten Year Run, Todd Baker unabashedly shared his journey from couch potato to Olympic torchbearer and marathon finisher. Now, he confesses his love for the worlds scariest and loudest music: Heavy Metal. Baker wears a tie by day and a Slayer t-shirt by night and has been a dedicated metal head for 35 years. And hes a really nice and funny guy. In Metal Fatigue, Baker humorously describes his apprenticeship in the heavy metal trade to explain how such a decent person can fall in love with such wicked music. From listening to Black Sabbath for the first time to interviewing intergalactic warlords as a college radio DJ to failing to properly execute a stage dive, Baker shares stories of his life in metal music and how he survived it (mostly) unscathed. Metal Fatigue is a wry and witty memoir that will charm metal heads and those who just dont get it. And he offers encouragement for any confused parent of a kid who loves heavy metal.
