

Earth Star

Romance, science fiction, action, and a look at the false assumptions we make about others combine in this light-hearted, fun, and well-conceived science fiction future. Only She Can Save the World. Eighteen-year-old Jarra has a lot to prove. After being awarded one of the military's highest honors for her role in a daring rescue attempt, she finds herself in the spotlight. Jarra is one of the unlucky few born with an immune system that cannot survive on other planets. Derided as an ape throwback by the rest of the universe, she is on a mission to prove that Earth Girls are just as good as anyone else. Except now the planet she loves is under threat by what could be humanity's first ever alien contact. Jarra's bravery and specialist knowledge will once again be at the center of the maelstrom, but will the rest of the universe consider Earth worth fighting for?
