

## Fox Family Adventures (Animal Family Adventures)

Students will love learning about the way of life of foxes and the challenges they face as babies and adults. There are gray foxes, arctic foxes, fennec foxes, cape foxes, swift foxes, kit foxes, and red foxes. An exciting narrative format supported by fun facts, questions, and activities, tells the story of a red fox family. Found all over the planet, red fox families start with the birth of four to six kits. Born in a den, the baby foxes leave the den with their mothers after two to three weeks and start to play, pounce, and hunt. What adventures will they have? Will they meet some other animals along the way? Readers will love these adorable animals and learn to write their own stories about them.
