

The Mysterious Man: A bold and inspiring novel, a mans search for his family and past

A young man is found unconscious in a park in London. He has no injuries, no illnesses. Weeks later, the doctors still cant explain why he hasnt regained consciousness. A detective, a homeless man and a writer try to find answers to the questions surrounding him. A widely traveled elderly man by the name of Martin Ritter is working on his memoirs. As a restless young man, he had left home at the age of nineteen. The decades that followed were dominated by emotional uncertainties. Did he surrender to them? Did he find what he had been searching for? About half way through the book, the young man and the elderly man meet under extraordinary circumstances they collide, may be a better word and seemingly unanswerable questions emerge. The Mysterious Man is a major novel that encompasses three genres: literary fiction, mystery and memoirs.
