

Insect Life Cycles (World of Insects (Crabtree Publishing Paperback))

This book is intended for ages 4-8. Following insects from egg to adult, this book outlines the amazing changes different species of insects go through before they become fully-grown. Full-colour photographs and detailed illustrations of insects, from the familiar to the exotic, are featured. Topics include: incomplete and complete metamorphosis; where insects lay their eggs; what growing nymphs and larvae eat; how they find food; how nymphs and larvae protect themselves from predators; and how insects moult.
