

# Manage Your Life in 1 Month: Time to Manage Your Mind, Manage Your Mood, Manage Your Money, and Manage Your Time towards Work Life Balance Lifestyle (Time ... - Organize Your Time - Time Management)

Manage Your Life in 30 Days Thirty days is not a very long time. Its not enough time to make many of the changes that we would need to take our life to the next level its not enough time to learn something significant, you cant make a huge amount of money in that time and you cant make any drastic changes to your body. However, there is one vitally important thing that you can do that can and will change everything. Create new habits. The habits that govern our everyday activities will eventually be the structure of our entire life and if we dont take control of the process we might not like the end results. In the book Manage your life in one month you will learn a series of essential steps you need to make that ensure you have what it takes to take your life to the highest heights possible. Divided into three phases, Manage your life in 30 days will take you by the hand and guide you on a step-by-step journey to fulfilling your potential in every major area of your life. Each phase builds on the one that came before it to act like a ladder for success. The first phase will help you gain perspective about what has been holding you back and give you tools that will help you master the inner game of success. The reality is that you wont achieve anything until you have your subconscious and conscious mind in alignment so that there is no internal conflict. The second phase will help you build a clear vision that will inspire you to act while clearing everything that is in your way. Most people fail because they ignore this essential step and the techniques in this section will accelerate your progress even faster. The last phase is all about action. In this part of the book we give you practical tools that will help you control all of the important areas of your life with mastery and ease. If knowledge is power, then the information in this section is about to make you super human! This book is for anyone who is

ready to take control of their lives and doesn't have the patience to wait years for slow and unreliable process. And who can blame you? Life is short; no one wants to waste a huge percentage of it creating the same destructive patterns. You should use every moment to take yourself to a slightly higher level. If you want to feel good and you want to feel that way now, you will surprise you with the efficiency and effectiveness of the techniques in this book. You are closer to the life you want than you think and this book will help you get it. It was written with you and your needs in mind and, if you follow through on the tools you get, you will surprise yourself with your abilities. I hope you take the time to invest in yourself by reading this book and implementing its strategies.
