

The Three Little Aliens and the Big Bad Robot

GREEP BOINK MEEP! The three little aliens are happily settling into their new homes when the Big Bad Robot flies in to crack and smack and whack their houses down! A chase across the solar system follows in this out-of-this-world version of the classic Three Little Pigs tale. Margaret McNamara (How Many Seeds in a Pumpkin?) and Mark Fearing (The Book that Eats People) have created a humorous and visually stunning story that kids will adore and that will introduce them to the planets and the solar system. The endpapers even include a labeled diagram of all the planets.
