

## Its Not Only Rock n Roll - Iconic Musicians Reveal the Source of their Creativity

I was amazed at how many people have shared an experience I though was so rare - Eric Clapton. In this exciting and inspiring book, 75 of the worlds most iconic musicians reveal - many for the first time - their thoughts on creating music. Psychologist Jenny Boyd has probed the minds and souls of these artists and has delved into the drive to create, the importance of nurturing creativity, the role of unconscious influences and the effects of chemicals and drugs on the creative process. Music legends who contributed exclusive interviews include: ERIC CLAPTON - GEORGE HARRISON - JULIAN LENNON - JACKSON BROWNE - DAVID CROSBY - STEPHEN STILLS - GRAHAM NASH - DON HENLEY - HANK MARVIN - KEITH RICHARDS - RAVI SHANKAR - RINGO STARR - STEVE WINWOOD - MICK FLEETWOOD - STEVIE NICKS - JONI MITCHELL. With candid photographs and in-depth analysis of what makes great musicians tick, this is the ultimate book for any music fan.
