

Same Old Horse (MathStart 2)

Stuart J. Murphy travels all over the United States talking to thousands of kids. And you'll never believe what they talk about: MATH! Stuart shows kids that they use math every day -- to share a pizza, spend their allowance, even sort socks. Stuart writes funny stories about math -- and if you read his books, you'll start to see the fun in math, too. Same Old Horse Hankie wants to be unpredictable, but the other horses are sure he'll always be the same old Hankie. Someone's in for a surprise in this story about making predictions.
