

Maker Projects for Kids Who Love Animation (Be a Maker!)

In this engaging title, readers interested in animation will learn about the history of this art in motion, and discover who the worlds greatest animators have been and how they came to create their inspiring works. The book includes several imaginative Maker projects to inspire readers to create their own animation. They will be encouraged to choose the style of animation they wish to create and experiment with it to change it into a form that suits their ideas and concepts.
