Monet Paintings: 50 Great Paintings by Claude Monet. Claude Monet was one of the most influential artists of the late 19th and early 20th centuries. Monet was a founder of the impressionist movement and pioneered a new style of painting which concentrated on light and color rather than the perfect lines and shapes of traditional art. Charles Taylor has brought together 50 of the great Monet paintings. Each painting is on its own page with information and notes about each one to help you to be able to see the picture in context. Preceding the paintings is a short biography of Monet to help you understand the man and his work.
