

Moses and Pharaoh: Dominion Religion Versus Power Religion

This is Part Two of Gary North's commentary on Exodus. It is a discussion of the Ten Commandments from the point of view of economic theory. Gary's discussion of the sabbath in this book supersedes everything he has written in the past, and nobody who wants to deal with the sabbath issue can afford to ignore the questions he raises in this book. So far, there has been no detailed response from strict sabbatarians, although the book was published in 1986.
