

Flight (The Science Search Lab)

Each of these unique inquiry-based kits include hard-to-find science equipment, 14 different investigations that support the National Science Education Standards, plus a 32-page full-color Teachers Guide, 20-page full-color Student Flip Book, and a CD-ROM. The Teachers Guide includes a complete description of each investigation along with related background information. Reproducible activity and record sheets are also included. The Student Flip Book features step-by-step directions for each investigation. On the CD-ROM you will find all the contents in the Teachers Guide and the Student Flip Book plus the reproducible activity sheets that can be printed as needed. The CD is compatible with both PCs and Macintosh. Perfect for science centers, individual use, or small or large groups. The individual science equipment are packaged in a convenient storage unit for easy access.
