

People Planning

Everything in the Managers Toolbox Foundation Series of books leads to people planning. This is where we put it all together and create success. Real motivation comes from people not systems and a successful team is part of the employee engagement process. This approach will make people the key element on the road to success. You will learn to use simple people planning methods that will keep your people happy, motivated and highly productive. You will use the knowledge and skills learnt in previous books to put everything into action. Check the contents summary below: Chapter 1 A people planning strategy People planning is an innovative way of team building, motivation and continuous improvement. It is based on preparing simple but effective improvement plans for individuals and the group. This approach is fundamental to the Managers Toolbox approach. Chapter 2 The engagement process Employee Engagement has become a major influence on modern management methods. In this chapter we will review the benefits of this approach and how they can be realized. Chapter 3 MBWA (Management by Walkabout) In order to effectively apply the new knowledge and skills you have to create an environment for it to have the best chance of success. In this chapter, we will develop the huge power of management by walkabout. We will discuss the benefits of spending time with your people, the process and the power of management by walk around and its variations. Chapter 4 - Action for success This chapter is all about developing an effective personal development plan using all the resources available in this book. It may seem overwhelming at first but we will break it down into an achievable challenge!
