

Plants (Make It Work! Science)

Plants is a unique blend of imaginative activities, experiments and science facts that helps develop scientific thought. The vast Make it Work series teaches scientific principles through the hands-on process of making science work. Its an invaluable science series for school and home, mixing hobby and science in an effort to show kids how to observe, collate information, and reach conclusions. The easy-to-follow instructions and helpful color photos make it a great resource for children ages 8-11.
