

Race to Win: How to Become a Complete Champion Driver

Why do some racing teams and drivers succeed so brilliantly while others, even those who seem packed with potential, fail? If anyone knows, it would be Derek Daly. After a remarkable racing career that spanned nearly two decades, Daly turned his attention to the mechanics of success. He has parlayed his experience and hard-won understanding into a phenomenal second career teaching the principles of high performance to audiences throughout the auto racing and business worlds. This book offers readers the benefit of Dalys insight--and a rare inside look at world-class auto racing. Drawing on his original research and firsthand experience with some of the legends of professional auto racing--including Rusty Wallace, Roger Penske, Mario Andretti, and A. J. Foyt--Daly discusses why some individuals and teams fail to reach their potential while others become successful and famous. A complete course in winning, the book outlines the six key aspects of becoming a successful race car driver. Daly points out the different strengths and weaknesses among different drivers; and accordingly, he emphasizes the importance of creating an environment that takes advantage of these differences. As entertaining as it is instructive, his book will open a world of possibilities to race drivers, motorsports fans, and anyone who wants to know what it takes to win.
