

Railsea

Other names besides [Herman] Melville will surely come to mind as you read this thrilling tale. There's Dune, Frank Herbert... . But in this, as in all of his works, Mieville has that special knack for evoking other writers even while making the story wholly his own. Los Angeles Times On board the mole train Medes, Sham Yes ap Soorap watches in awe as he witnesses his first moldy warpe hunt: the giant mole bursting from the earth, the harpoonists targeting their prey, the battle resulting in one's death & the others glory. Spectacular as it is, Sham can't shake the sense that there is more to life than the endless rails of the railsea even if his captain thinks only of hunting the ivory-colored mole that took her arm years ago. But when they come across a wrecked train, Sham finds something—a series of pictures hinting at something, somewhere, that should be impossible—that leads to considerably more than he'd bargained for. Soon he's hunted on all sides, by pirates, trainfolk, monsters & salvage-scrabblers. & it might not be just Sham's life that's about to change. It could be the whole of the railsea. NEW YORK TIMES BESTSELLER [Mieville] gives all readers a lot to dig into here, be it emotional drama, Godzilla-esque monster carnage, or the high adventure that comes only with riding the rails. USA Today Superb ... massively imaginative. Publishers Weekly (starred review) Riveting ... a great adventure. NPR Wildly inventive ... Every sentence is packed with wit. The Guardian (London)
