

Scottish Inventors

For a small country, Scotland has produced a huge number of people whose brilliance and ingenuity have literally changed the world. In this amusing and informative book, aimed at children from 912, Gary Smailes tells the stories of 32 famous (and not so famous!) men and women, and their often bizarre inventions, who have put Scotland on the map. Includes: James Watt, Henry Bell, Thomas Telford, John Loudon McAdam (Transport); Alexander Graham Bell, John Logie Baird (Communications); Robert Stevenson, Thomas Stevenson (Lighthouses); Barbara Gilmour, Alexander Grant (Food); Robert Melville, Patrick Ferguson (Warfare); James Douglas (Crime); James Baird, James Young Simpson (Medicine); Charles Mackintosh (Raincoats!)
