

Starfall (a Starflight novel)

When Princess Cassia Rose fled her home world of Etureia to escape an arranged marriage to a bloodthirsty prince, she had no idea her sudden departure would spark a war. Now after two years hiding as a lowly ship hand, she finally has the chance to return home and make peace, but not in the way she imagined. Shackled by bounty hunters, she is violently dragged back to account for her crimes. Her only solace is that the Banshee crew managed to evade capture, including Kane Arric, her best friend...with occasional benefits. Meanwhile, Kane and the rest of the crew of the Banshee, including Solara and Doran, are planning a desperate rescue mission. But when they arrive on Etureia, they find Cassia ruling her home planet, having imprisoned the rogue prince who would have overthrown her family. Deep down, Kane knows that Cassia can't rule her world and be with the bastard son of a merchant, but he's also sure she returns his feelings, and that makes the circumstances all the more painful. When the outer realm is threatened by the dangerous Zhang mafia, Cassia, Kane and the rest of the Banshee crew rally to protect the population from widespread enslavement. The reunion forces Cassia to consider who her true family is and if she can live without the boy who has been there for her through thick and thin.
