

# The 15 Commitments of Conscious Leadership: A New Paradigm for Sustainable Success

You'll never see leadership the same way again after reading this book. These fifteen commitments are a distillation of decades of work with CEOs and other leaders. They are radical or provocative for many. They have been game changers for us and for our clients. We trust that they will be for you too. Our experience is that unconscious leadership is not sustainable. It won't work for you, your team or your organization in the long term. Unconscious leadership can deliver short term results, but the costs of living and leading unconsciously are great. Fear drives most leaders to make choices that are at odds with healthy relationships, vitality and balance. This fear leaves a toxic residue that won't be as easily tolerated in an increasingly complex business environment. Conscious leadership offers the antidote to fear. These pages contain a comprehensive road map to guide you to shift from fear-based to trust-based leadership. Once you learn and start practicing conscious leadership you'll get results in the form of more energy, clarity, focus and healthier relationships. You'll do more and more of what you are passionate about, and less of what you do out of obligation. You'll have more fun, be happier, experience less drama and be more on purpose. Your team will get results as well. They'll be more collaborative, creative, energized and engaged. They'll solve issues faster, and once resolved the issues won't resurface. Drama and gossip will all but disappear, and the energy and resources that fueled them will be redirected towards innovation and creativity. Any one of these commitments will change your life. All of them together are revolutionary. Leaders who practice the 15 commitments:

- End blame and criticism
- Speak candidly, openly and honestly, in a way that invites others to do the same
- Find their unique genius
- Let go of taking everything especially themselves and their problems so seriously

Create win for all solutions  
Experience a new relationship to time and money where there is always enough What do you need to bring to the table? Be curious. Sounds so simple, and yet in our experience its a skill few have mastered. Most of us are far more interested in being right and proving it, than we are in learning, growing and shifting out of our old patterns. By default we gravitate towards the familiar. Were asking you to take a chance and explore the unfamiliar. Youll get scared and reactive. We all do. So what? Just stay curious and let us introduce you to a whole new world of leadership.
