

The Big Dipper (Constellation Collection)

The Big Dipper is one of the most popular star formations. Readers will be able to find it easily after they learn important facts about its location, history, and the individual stars that form it. Every star formation has a story, and readers discover the story behind the Big Dipper while also exploring the fascinating branch of space science known as astronomy. Essential science curriculum topics are presented in an entertaining and interactive way, as readers are encouraged to look for the Big Dipper like budding astronomers. Bright photographs of these stars bring the world of astronomy to readers in an accessible way.
