

Smell (The Five Senses)

Do you remember your first realization of any of your five senses? Prolific childrens author J. M. ParramA?n successfully tackles these tough concepts in words that 3-5 year olds can comprehend. These five colorful books awaken young minds to the wonders of the senses: the taste of oranges, the aroma of fresh-baked bread, and other sensations that give us delight in being alive. Educational, yet fun to read, this clever series is clearly written and cheerfully illustrated in flowing colors throughout. Each book includes a special scientific section to help parents answer their childrens questions about the senses.
