

The Pirates of Turtle Rock

Turtle Rock is where sixteen-year-old Jenny Snow goes to sit and listen to her iPod and think about the tedium that is her life. Although she is by nature a steady, responsible sort of person, Jenny longs for adventure, even danger. Little does she know, danger and adventure lie right under her nosequite literally. Having spotted her sunning on Turtle Rock, a young seventh-generation pirate named Coop DeVille has swum all the way from his ship to make her acquaintance. Of course, she is too consumed by her own boredom to notice him clinging to the rock below, but a pirate is not easily deterred, which is only one of the many things Jenny soon discovers. Like the ancient map Coop DeVille keeps taped to his stomach, the adventure of Jennys life finally begins to unfoldand as it does, even the rock she sits on nearly becomes her undoing in this rollicking tale of piracy, peril, lost treasure, and newfound loveas only Richard Jennings could imagine it.
