

The Wind Harp and Other Angel Tales

To me angels are more than sentimental remnants of parochial school education or the pink cherubs of old holy cards. They are friends and companions along the way, at the moment invisible but no less real, who guide, inspire, warn, comfort and protect us from harm (and sometimes from ourselves), writes Pochocki. The ten angel stories in this book will delight people of any age who love a good story, who seek creative insight into the often puzzling and mysterious workings of the human spirit, who have ever felt drawn to the world that lies just beyond our senses. Like fairy tales and parables, these angel tales offer a message with a light touch, a gentle tug and a whisper of wings.
