

The Wolfs Story: What Really Happened to Little Red Riding Hood

Little readers will love second-guessing this funny, fractured fairy tale that replays the story of Little Red Riding Hood from the poor maligned wolfs point of view. No, please. Look at me. Would I LIE to you? It was the old woman who started it. Everyone knows there are at least two sides to every story, and if you believe in the big-eared, sharp-toothed villain of LITTLE RED RIDING HOOD, theres a logical explanation for everything. As our antihero tells it, it all starts with the helpful wolf doing odd jobs for Grandma (are you sure you dont want to sit a little closer?). How was he to know that he spoiled Little Red would come along and ruin a good working relationship? Zooming in dramatically from strategic angles, the amusing illustrations offer visual clues that this is a story to be taken with a grain of salt - and a lot of giggling.
