

Truck Jam: A Pop Up Book

Here come the trucks: fire engines and dump trucks, big rigs and tow trucks all roar into action. In his first pop-up book since his bestselling *Dinosaur Stomp* four years ago, Paul Stickland brings together terrific paper-engineering skills with an uncanny knack of infusing realistically-detailed vehicles with charm and humor. The simple chant-along text-the hallmark of the Sticklands *DINOSAUR ROAR*-makes this a fabulous read-aloud must for all young truckers. The sturdy pop-ups are self-activating: an ideal book even for younger readers who will want to peer under the shiny hood of the semi or watch an overheated engine explode in smoke. From the holographic chrome foil on the cover right down to the last dent on a bumper, *TRUCK JAM* packs unadulterated fun.
