

This is Your Life Cycle

In this hilarious and inventive picture book, your host, Bob Beetle, takes special guest Dahlia Dragonfly down memory lane, highlighting the most influential creatures and experiences during her time as a nymph. You'll meet three mystery guests, who'll share their personal stories about Dahlia, and along the way you'll find out about the different stages of a dragonfly's life, the various predators they face, what they eat, and other amazing facts. And who knows what else might happen because, as always, we'll be filming live in front of our all-insect studio audience! Filled with fun and humor, this book is as entertaining as it is informative. So please join us for an evening of laughter, thrills, and the thorax-warming memories that make every life cycle its own fascinating story.
