

# Working Papers, Financial Accounting, Tools for Business Decision Making

Now in its Third Edition, Financial Accounting by Kimmel, Weygandt, and Kieso has been tested and approved in the classroom. This best-selling text has helped students hit the road with a practical set of tools, and the confidence they need to use those tools effectively in making business decisions. Financial Accounting provides students with an understanding of those concepts that are fundamental to the use of accounting. Starting with a macro view of accounting information, the authors present real financial statements and establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. They motivate students by grounding the discussion in the real world, showing them the relevance of the topics covered to their future career. Student Workbook: This valuable study guide, written to use side-by-side with the Financial Accounting textbook provides the guidance and assurance you need to exceed in the course. Included a re study objectives, demonstration problems, true/false and multiple-choice questions, solutions, to exercises, chapter outlines, and blank working papers.
